Experience

SRM TECHSOL PVT LTD

Software Engineer

MARCH 2024 – Present

Lucknow, Uttar Pradesh

- Built and maintained responsive SPAs using **React.js**, implementing modern hooks and functional components.
- Integrated **RESTful APIs** and third-party libraries to enhance UI functionality and improve user workflows.
- Improved application load times by **30%** through code-splitting, lazy loading, and performance tuning.
- Collaborated with designers to implement **Figma-to-React** workflows, ensuring pixel-perfect implementation.
- Contributed to Agile sprints and code reviews, provided constructive feedback, enhanced UI/UX, and supported cross-functional collaboration.

Cognizant

Programmer Analyst Trainee

OCT 2022 – SEPT 2023

Pune, Maharashtra

- Developed interactive and scalable web interfaces using **React.js**, **JavaScript (ES6+)**, and modern frontend libraries.
- Improved codebase maintainability and reliability by **15%** through peer reviews and adherence to best practices.
- Designed and implemented reusable components that reduced UI development time and improved consistency.
- Enhanced application performance by optimizing component rendering, minimizing re-renders, and implementing lazy loading techniques.

Technical Skills

- HTML
- CSS
- JavaScript
- React JS
- React Native
- Redux
- Context API
- Bootstrap
- Tailwind
- RESTful APIs
- Axios
- Git
- GitHub
- Agile/ Scrum

Projects

Digital Company CRM | *React.js, Node.js, MongoDB, VICI Dial API*

- Built secure CRM with OTP auth, role-based access, and team-scaled subscription billing for flexible client onboarding.
- Processed bulk lead data via CSV/Excel with validation (cutting errors by **75%**) and integrated VICI Dial API for outbound calling, enabling real-time campaigns and eliminating third-party tools.
- Handled structured data of consumers, spouses, dependents, businesses, Medicare, and life insurance efficiently.
- Automated agent status ("Available/Away") and call routing, reducing manual setup time by over 90%.

Real-time Chat App | *React Native, Node.js, Firebase, Socket.IO, MongoDB*

- Built a cross-platform real-time chat application using **React Native**, delivering a seamless messaging experience.
- Integrated **Firebase Authentication** with Google Sign-In, reducing login failures by **40%**.
- Optimized **React Native** components for reusability, boosting performance and maintainability.
- Implemented push notifications using **Firebase Cloud Messaging (FCM)**, increasing user engagement.
- Integrated seamlessly with backend services built using **Node.js and Express**, enabling smooth data synchronization and real-time communication.

Netflix Clone with AI Recommendations | *React, Redux, Firebase, Gemini API, TMDB*

- Developed a Netflix clone with an AI-driven recommendation engine using the **Gemini API** for personalized content suggestions.
- Implemented secure authentication with **Firebase Auth**, enabling Google Sign-In and managing user sessions.
- Managed global state efficiently using **Redux**, improving user experience and application scalability.
- Integrated with **TMDB API** for real-time movie data, enabling dynamic content browsing.
- Built an engaging UI with **hover-based trailers and instant previews**, enhancing interactivity and user engagement.

Education

Dr. A.P.J Abdul Kalam Technical University

B.Tech (Electronics and Instrumentation Engineering) – CGPA: 8.9

2018 – 2022

Ghaziabad, Uttar Pradesh
